

Dear Silver Messages,

Thanks for writing. I absolutely ADORE the ring and never want to take it off! I find myself taking off my other rings, and then I often wake up with your ring still on my index finger or thumb, realizing I'd never taken it off the night before. That's how comfortable it is... how good it feels. And it is just beautiful and I've received many compliments on it already. Thank you for a quality product and great service. I'll be ordering again soon.

All the best,

Nancy
